CONSTRUCTION

FIELDSTONE CABINETRY DRAWERS

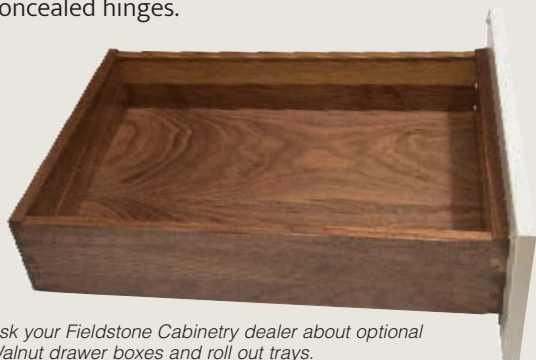

1. Sides are solid hardwood. When you choose the walnut drawer box, the sides are walnut.
2. Dovetail joinery insures a strong joint.
3. Drawer bottom is plywood veneer coated with melamine. Bottom can be upgraded to prefinished maple veneer. When you choose the walnut drawer box, the bottom is walnut veneer.
4. Routes in the sides hold the bottom panel tight, so the drawer bottom is "captive," not just stapled or glued.
5. Glides extend fully so you can reach everything in the drawer. The glides are also soft close, so the drawer shuts itself the final two inches, quietly and peacefully. Glides are mounted underneath, so the drawer has a polished look when opened, and the glides don't collect dust.
6. Rated at 100 pound capacity

SOFT CLOSE DRAWERS & DOORS: PEACE IN THE KITCHEN.

Imagine this in your home: cabinet drawers that extend fully and close quietly, and cabinet doors that close quietly. Fieldstone Cabinetry drawers are standard with full extension for easy access, no glide hardware showing, and a whisper quiet close that steers even fully loaded drawers to a smooth, silent closure. Soft close doors are standard on all overlay cabinetry, and on inset cabinetry built with concealed hinges.

Ask your Fieldstone Cabinetry dealer about optional Walnut drawer boxes and roll out trays.

You can't see well into blind corner cabinets, so they are named well! Blind corners are dead space in a room. They hold the punch bowl and turkey roaster used once or twice a year—it's just too hard to fetch stuff from a "blind corner."

Don't settle for blind corners. We have several options that transform corners into easy to reach storage areas.

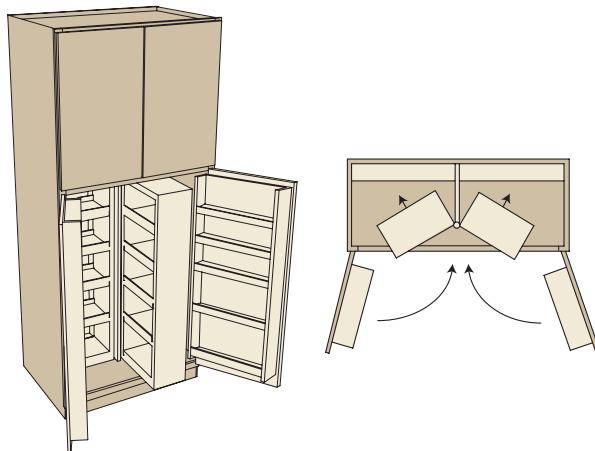

Lazy susans spring to mind when people think of making a corner useful. When there isn't room for a lazy susan—they require 33 or 36 inches both ways from the corner—consider the options on these two pages.

Accessories for blind corner cabinets are configured so shelves and their contents come to you.
