Look for smart ways to incorporate storage. For example, the cabinet at the end of the island features storage for items such as cookie sheets and cooling racks.

## KIM FOLLIS

Kitchen and Bath Designer  
Altoona, PA

## DESIGNER SPOTLIGHT

Hi, Kim!

**Tell us a little bit about yourself. Where are you from, family, hobbies, anything you'd like to share!**

I'm a mother of a wonderful 13-year-old boy. I live in Central Pennsylvania but have lived in many places across the States over the years. I love spending time with friends and family, traveling to new places and practicing yoga. I am also an avid cook so designing kitchens is a dream job for me.

**How long have you been a designer?**

I have been a kitchen and bath designer for six years and, I have been designing with Diamond since the very beginning. I love it!

**We love your passion! Why Diamond?**

I love that Diamond has a wide variety of wood species, finishes and specialty cabinets. It makes my job so much easier because Diamond has something for everyone.

**We really loved your use of space in this kitchen design you shared. Tell us more about this design.**

My clients wanted to maximize their space and make their kitchen the focal point of their home. It was a challenge to maximize storage without overwhelming the space. The clients were wanting the tall, stacked cabinet look but the ceiling beams made it more challenging. The contractor was able to use Diamond cabinet panels and trim to build those decorative panels so the beams would seamlessly transition from ceiling to

cabinet. This finishing touch draws the eye up and helps visually enlarge the space.

**Design is most definitely in the details. Tell us about the smart extra storage you built into the island.**

Glad you noticed that! I strive to build in storage everywhere possible while still achieving a clean aesthetic. This narrow space is just what is needed to keep cookie sheets, cooling racks, and other similarly shaped kitchen items stowed away but still easily accessible.

**Do you have any design tips or tricks that you'd like to share?**

Listen to your client. Most of my clients know what they want but don't always know what choices are available to them. I'm here to listen and then guide them and present options to bring their beautiful new kitchen to life!

**What are some of the biggest design challenges you have faced?**

I work with many clients who live in older homes where the existing kitchens are very small and outdated. I work with them to modernize the kitchen and give them additional storage space while preserving the existing charm of the home. It's always a fun challenge to piece those elements together.

**Thank you, Kim! We can't wait to see your next design.**

Beautiful and functional, coffee and beverage stations are becoming increasingly prevalent in kitchen designs. The unique shape of this one is especially attractive.

## FINISHES

### JUST THE RIGHT FINISH.

Year after year, white wins the popular vote in kitchen cabinet paint finish choice, and it may be the winning choice for you.

If that's the case, the real question is which white. After all, white isn't white. There are many shades and tints of white to choose from with Diamond. Work with your designer to find your right white.

Shown: Boynton Maple Brightest White, Distinction™ Series

Shown: Wells Maple Maritime Paint, Distinction™ Series

Shown: Furniture Valance Maple White Paint

### DESIGNER TIP:

Prior to making a final decision, be sure to view the finish you select in your home in the lighting that your cabinets will experience and at different times of day. This will ensure you make a confident choice.

Daubs shown above: Icy Avalanche, Steam, White and Brightest White

Please refer to door samples for a true representation of finish color. This printed guide cannot be considered color accurate.

### CUE THE COLOR.

What if white isn't right for your design? You can go bold and choose a color for your full design or go with a dynamic two-tone design to create dimension. The two-tone concept can be done with two paint finishes or a paint and a stain.

These are some of our favorite finish combinations to inspire you!

## SHEEN

## HEIRLOOMING

Finishing techniques are a great way to give your cabinets a unique look. Heirlooming adds dimension and interest to your cabinets.

Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.

### MATTE SHEEN

*(Top portion of door)*

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

### SATIN SHEEN

*(Lower portion of door)*

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

### DESIGNER TIP:

Accessorize your cabinetry with personal touches like these furniture-inspired feet. See more accessory options on page 30.
